Please meet with @king.kambale to give him ideas for a first test video.

Client will love us even more 😊

Given it's for a Québec audience, any chance the tools permit a Québec or Canadian French accent?

Let me try

[king.kambale](#) 2024-10-07 08:32

I'm sending you two or three audios of the different voices of the speakers (robots), so you can help us choose which one comes closest to the real Quebec accent and which sounds the most natural

I sent this example to the client

Let's see what they say 😊
