Priority

5 Nice to have

Task

tiki-plugins.php: Only send email notification 10 minutes later

Add a timesheet

Add a timesheet for this task

Description

Ref: <https://doc.tiki.org/Plugin-Security>

When a plugin needs to be approved, an email is sent out to those who have that permission.

But perhaps 95% of the time, the edit is done by someone who has permission, and will approve their own edit within seconds of saving the page.

So email here is just noise. I propose to only send 10 minutes later, which will cover the missing cases like someone who forgot to approve their own plugin, or someone who edits a plugin, and needs someone else to approve.

Related

- 🟡 6 Unlikely: tiki-plugins.php shows unactionable info assigned to developer
- 🟡 5 Nice to have: tiki-plugins.php should have the date of when the plugin was added and a copy of the text assigned to josaphat.imani
